

Mark A. Gilger, M.D., FAAP

*Pediatrician-in-Chief
Children's Hospital of San Antonio
Professor of Pediatrics
Baylor College of Medicine*

March 4, 2014

Baylor College of Medicine contracted with Assurgent Medical Staffing to assist in filling multiple Pediatric Subspecialty positions at the Children's Hospital of San Antonio. Working with Assurgent and their staff of Recruiters was a very efficient and effective process for us. Assurgent Medical Recruiters came on site to profile our needs and get a firsthand look into our facility and staff. This enabled all parties involved to reach a quick and accurate decision on whether or not to proceed with an onsite interview with qualified candidates. We received an ample flow of qualified candidates and the follow up and attention to detail made our process quite simple. I would certainly recommend Assurgent Medical Staffing if you are looking for fast and accurate results in your Physician search.

Sincerely,

Mark A. Gilger, MD
