We have contracted with Assurgent Medical Staffing to assist in filling several difficult sub-specialty anesthesia searches, some of which are at the directorship level. They have sent a flow of candidates on a consistent basis for these positions, which has led to multiple interviews.

Assurgent Medical Staffing was able to market and attract viable candidates interested in the position and the Augusta area. The recruiters assigned to the search have done a great job in keeping the lines of communication open and sending us updates on a normal basis.

Assurgent Medical is also assisting the spouse of one of our candidates in finding employment and has been able to connect her with several headhunters who will assist her in finding employment.

Overall, we are pleased with the efforts of Assurgent Medical Staffing and would recommend them to any hospital or university.

Regards,

A handwritten signature in blue ink, appearing to read 'S. Meiler', with a long horizontal flourish extending to the right.
