To whom it may concern:

The Doleys Clinic in Hoover, Alabama contracted with Assurgent Medical Solutions due to an urgent need for a Pain Interventionist.

We were presented with candidates in a timely fashion shortly after the search was initiated, and were able to fill the position within 9 months. We received an ample flow of qualified candidates and the follow up and attention to detail made our process quite simple.

Our assigned recruiter, Ilysha Minor, assisted us through the contract negotiations, closing of the process and was in constant contact with the parties involved. She went above and beyond to make this recruitment as efficient as possible.

We would strongly recommend working with Assurgent Medical Staffing and will be happy to provide a reference. We look forward to working with them in the future in regards to other needs we may have.

Best Regards,
